

ULTRASONOGRAPHY is now in SCIE

ULTRA SONO GRAPHY

JEONG-SIK YU

Editor-in-Chief
ULTRASONOGRAPHY

We are pleased to announce that *Ultrasonography* is now listed in the SCIE category of the Web of Science hosted by Clarivate Analytics. Founded in 1982 as the official journal of the Korean Society for Ultrasound in Medicine, our journal has been striving globalization since its renewal as an English-language journal with full open access policy in 2014. As a result of our efforts to publish quality papers that comply with the latest editorial guidelines, we are listed in PubMed Central (2014), SCOPUS (2017) and now in SCIE.

Currently, more than half of the articles have been written by international authors over the past two years, and SCOPUS 'CiteScore (=2.85 for 2018) is the highest among the all general medical ultrasound journals in the world. We expect the first official JCR (Journal Citation Reports) impact factor for 2019 to be around 3.0. In the future, we will continue to introduce the latest research and provide the most up-to-date guidelines for ultrasound imaging along with reviews that directly aid in actual clinical ultrasound.

As Editor-in-Chief, I would like to thank all the authors, reviewers and editors who supported our journal, especially the dedication and hard work of the staff who created the journal.
